

# Experts in Career and Technical Education

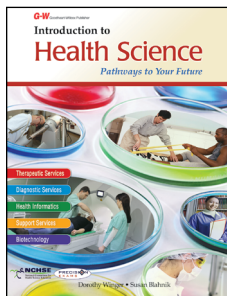

Grades 9–12  
Health Science

Employment of healthcare occupations is projected to grow 16 percent from 2020 to 2023, much faster than the average for all occupations. Approximately 2.6 million new jobs will be added. This projected growth is mainly due to an aging population, leading to greater demand for healthcare services. (Source: Bureau of Labor Statistics)

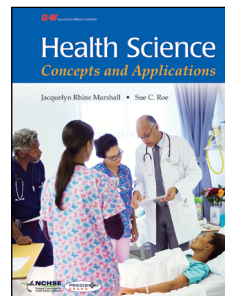

G-W Publisher can help turn students into skilled employees to meet this growing demand. For 100 years, G-W has focused exclusively on providing affordable, high-quality instructional resources for Career and Technical Education. Let's work together to build careers!
