2021-22 Pathways

Arts & Sciences

Computer Technology

Business & Culinary

Agriculture

Construction

Public Services

Manufacturing

Healthcare

Transportation

Take the first step toward your future with confidence.

For decades, SCC has connected learners of all walks of life to the careers they were meant to lead. Through an outstanding variety of career and technical, academic transfer, and continuing education programs, you have the freedom to pursue your calling. We pride ourselves on hands-on learning so you graduate knowing your stuff and practicing it, too.

An SCC education doesn't close doors—it opens them.
Come find **Your Path to Possible.**

Maximize Your Moment

At SCC, you'll have no limit to the career path you wish to make for yourself or the one you've yet to discover.

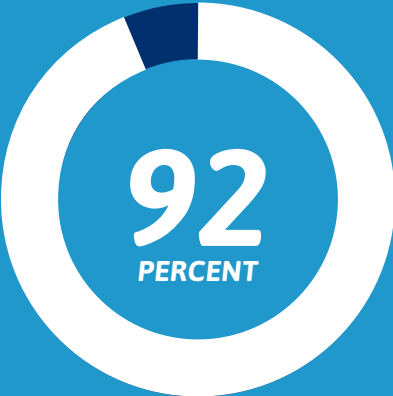

Make the most of your college choice by picking the school that won't put any limitations on what you learn, when you want to learn it, and even where you want to learn.

- **With a wide array of academic programs, you won't be hurting for options.** You can study everything from agriculture to culinary arts to healthcare or auto repair. We prepare today's students for tomorrow's jobs by teaching you the specific skills employers want.
- **Our education fits into your life, not the other way around.** Getting a college education shouldn't mean putting your life on hold. At SCC, you'll always have a clear roadmap of what classes to take, when they're available, and why they add value.
- **We make sure your location doesn't limit your learning.** Learn at our Beatrice, Lincoln, and Milford Campuses, our downtown Lincoln location (Education Square), or take classes from afar. You can attend campus classes through an SCC robot from our learning centers in Falls City, Hebron, Nebraska City, Plattsmouth, Wahoo, and York, or take our online courses available to anyone, anytime, anywhere.

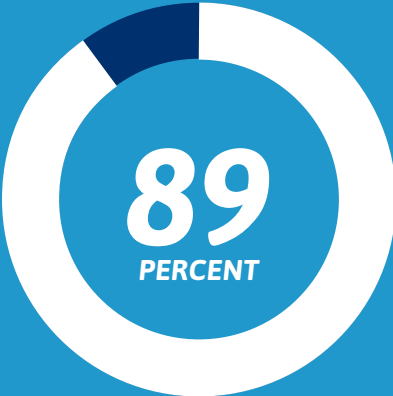

Graduate & Prosper

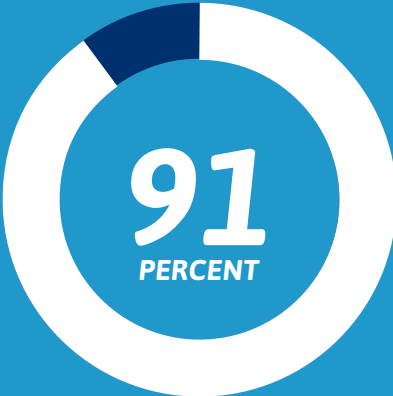

SCC is just the beginning. We train our students to make an immediate impact in their life's work, as evidenced by our Class of 2020.

EMPLOYED OR CONTINUING EDUCATION.

WORKING IN THEIR FIELD OF STUDY.

WORKING IN NEBRASKA.

Data from 2020 Graduate Report, produced by SCC Office of Institutional Research.

SCC has a long history of ensuring that employers have access to qualified graduates who have the skills needed for successful and productive employment. SCC continually seeks to align its programs with the specific needs and requirements of employers and transfer institutions. We are committed to meeting the educational needs of our students, employers, and the community."

—Paul Illich, SCC President

Achievable, Affordable, About You

We provide an academic environment where you can find success, scholarships, and satisfaction.

We believe it's our job to put students in the position to succeed, and we spare no expense in making it happen.

- We offer **60 programs** in nine different career paths, giving students dozens of ways to realize their potential and earn a living.
- On top of federal and state financial aid, SCC gave out more than **\$2 million in scholarships** last year to help make a college education possible for thousands of students.
- High school students living in our 15-county service area can take advantage of a **50% discount** on Career Academy, dual-credit, and Southeast Nebraska Career Academy Partnership (SENCAP) classes.
- You'll never be a number here. Our **12:1 student-to-faculty ratio** gives you access to, and the attention of, faculty who care about preparing you for your future in the workforce.

2021–22 Tuition & Fees

Save money and time with a low-cost, high-reward college education.

Nebraska Residents

\$114 /credit hour

Out-of-state Residents

\$135 /credit hour

Dual-credit, TCA and SENCAP*

\$57 /credit hour

*For high school students in SCC's 15-county area.

Support & Advising

Even if you're venturing out on your own for the first time, you don't have to face college alone. At SCC, you have a team of dedicated staff to support you no matter what. Whether you want help choosing classes, career guidance, or just someone to talk to, we have your back.

Academic & Career Advising

Every SCC student is assigned **two advisors** who stick with them through their entire time at SCC. This offers each admitted student a high level of support along the journey to their career. One advisor is a **College Advisor** and the other is a **Program Advisor**. Each provides insight and guidance to ensure you get the most out of your SCC experience.

College Advisor

- Clarifies and confirms your academic path and career choice.
- Advises you through New Student Enrollment, your first semester, and subsequent terms as needed.
- Serves as an ongoing success coach.

Program Advisor

- Provides detailed advising for your specific area of study.
- Offers expert mentoring as you explore career options.
- Guides class schedule creation.

Career Services

From your first day on campus to the day you graduate, our Career Services Specialists will help you succeed. The Career Services Centers on all three campuses can give you insight into different career fields and jobs while also helping you find part-time employment while you study at SCC.

The SCC JobConnect portal is yours to use as a student and graduate, giving you access to easily apply for jobs, internships, and cooperative experience opportunities.

Mental Health Resources

Through the Counseling Assistance Program for Students (CAPS), all SCC students can access free counseling and support groups. College—and life—can be difficult, especially in unusual times, and we work hard to give students every opportunity to receive mental health support so they can thrive on their path to possible.

Cutting-Edge Campuses

We see it as our responsibility to educate the workforce that will take care of our state for years to come. That's why we have facilities capable of transforming learning for the future.

Beatrice

New Spaces

After an extensive remodel, the **Kennedy Center** is now a one-stop welcome for students with easy access to Student Affairs (including Admissions, Financial Aid, Registration, and Advising) as well as the Business Office, testing center, campus safety and security, continuing education, and campus administration. Additionally, new study spaces and lounge areas are available to students in the Center.

The new **Storm Center Dining Hall**, with a number of food service options, now serves the campus community.

Opened in January 2021, the 60,000-square-foot **Academic Excellence Center** is ready for students. All academic programs have space in this facility for classrooms, labs, events, and meetings. Also, the newly remodeled Agriculture Hall provides modern classroom spaces for students.

Discover SCC

Get a look at our innovative facilities and programs by visiting our campuses. Whether you visit in-person or virtually, we're here to answer your questions and help you find your path to possible at SCC.

► Discover SCC's campuses at southeast.edu/visitscc.

Lincoln

New Spaces

The **Great Plains Culinary Institute** and its high-end **Course Restaurant** are impressive spaces on the Lincoln Campus. The \$4.2 million revamp of the Culinary/Hospitality program includes the full-service restaurant, new classrooms, labs, and a bakery.

The Career Academy (TCA) is a joint venture between Lincoln Public Schools and SCC, showing high school juniors and seniors routes to 16 different career pathways. Expert instructors at TCA stretch the students' learning, while more than 150 business and industry professionals provide real-world connections.

The new **Health Sciences facility** is a stunning, 81,909-square-foot addition to the SCC healthcare programs. It includes 14 state-of-the-art health science labs and classrooms that simulate a real-life medical center. The facility opened in January 2021 and offers increased collaboration, innovation, and excellence in learning for health sciences students.

Milford

New Spaces

The **Crete Carrier Diesel Technology & Welding Center** houses the diesel programs and welding classes in a 60,000-square-foot space. Opened in January 2020, the facility creates new capacity to help SCC meet industry demand and train students in emerging technologies as part of their studies in the Diesel Technology-Truck and Diesel-Ag Equipment Service Technology programs.

Meadow Hall is the newest residence hall on the Milford Campus with rooms for approximately 152 students. The facility opened for the 2021 Fall Semester with a suite-style layout similar to Prairie Hall, which opened in Fall 2019.

Home Away From Home

In SCC's brand-new residence halls, discover your independence, meet lifelong friends, and stay within walking distance of all your classes and campus resources. When class ends, you're just around the corner from study spaces, the cafeteria, and your room. The SCC residence halls offer freedom and convenience for you to live your best college life.

Beatrice

Homestead Hall is a new three-story coed residence hall that houses 149 students. Each room has a kitchenette, plus internet and TV service. Outside the rooms, study and lounge areas, as well as laundry facilities and a community kitchen, are available to hall residents. Single- and double-bedroom options are available.

Eisenhower, Roosevelt and Washington Halls are each apartment-style residence halls that can accommodate two to four residents per apartment. Each unit includes a kitchen, living space, two bathrooms, and two double bedrooms.

Milford

Prairie Hall and Meadow Hall, like Homestead Hall in Beatrice, are new three-story coed residence halls. They can also each house between 149 and 152 students and offer kitchenettes in each room, internet and TV service, study and lounge areas, laundry facilities, and a community kitchen. Single- and double-bedroom options are available.

Pioneer Complex offers apartment-style living for up to four people per unit. Each apartment includes a kitchen, living space, a bathroom, and two double bedrooms.

Secure, Safe, Healthy Living

SCC is a place for you to choose your path and choose your future. It's our responsibility to provide a secure, safe environment for you to pursue your path successfully. And we hold that responsibility in the highest regard. Both now—in these unique times—and beyond, SCC's top priority is your safety, health, and wellness.

Campus Security

Each SCC campus offers multiple resources to keep all students safe and protected. Campus residential buildings require student key card access, and all campuses are monitored with security cameras and public safety officers. SCC also offers trusted escorts if you are concerned about walking to your vehicle in the evening, as well as an emergency messaging service to keep you informed of any emergency situations on campus.

Center: Prairie Hall, Milford Campus

Right: Prairie Hall, Milford Campus

Health & Safety

The well-being of our students is paramount, and SCC is committed to providing students an excellent education within a safe, secure environment. During COVID-19, we adhered to public health measures and took the necessary steps to mitigate the risk of spread on campus, safely providing in-person and online classes. As we move beyond the pandemic, SCC will continue making all campus buildings clean and sanitary while ensuring health resources are accessible to all students.

Enrich Your Experience

At SCC, we are invested in providing you a complete college experience that sets you up for success and gives you lifelong memories. Build your leadership skills, confidence, and expand your horizons during your schooling by participating in student activities at each of our three campuses.

Find Your Place

Just because we're often seen as a technical school doesn't mean we trade in extracurriculars. Add to your classroom experience by participating in student activities at each of our three campuses or compete in SCC Intercollegiate Athletics at the Beatrice Campus.

Build Friendship & Leadership

The ways you learn and grow in college start in the classroom but extend far beyond. Some of the most valuable, formative college moments are in between classes and studying when you can build friendships and gain new perspectives from those around you.

Our Student Life and Residence Life staffs work hard to create opportunities for you to connect with others and grow your leadership. We often have game nights, movie nights, speakers, educational programming, pool tournaments, basketball tournaments, late-night breakfasts during finals, and more fun activities. We also have chances for you to get involved in planning activities for your fellow students.

Join the Storm

SCC Athletics call the Beatrice Campus home. The Storm compete in five men's sports and five women's sports in the National Junior College Athletic Association.

Academic Transfer

 **Beatrice, Lincoln (Campus, ESQ), Milford**  **4 terms**

 **100%-online option available**

 **Associate of Arts, Associate of Science**

The Academic Transfer program helps you earn an associate degree by completing up to 60 semester hours of general education credit, or you can take specific courses that transfer to a four-year institution for your intended major.

Getting Started

SCC's program is a perfect starting point, whether you plan to transfer just a few credits or the equivalent of two full years to a four-year school.

Where do you plan to transfer?

Understanding the varying course requirements of your desired four-year institution(s) will save you time and money. Research colleges and universities for details about everything from your intended major and any prerequisite courses you can take at SCC to admissions requirements for your desired major to application deadlines, fees, enrollment deposits, and more.

Degrees

The **Associate of Arts** degree is designed for students who plan to transfer to a four-year college or university to pursue a bachelor's degree in fields such as business, education, humanities, social science, or social work.

The **Associate of Science** degree is designed for students who plan to transfer to a four-year college or university to pursue a bachelor's degree in fields such as agriculture, engineering, science, or mathematics.

Academic Transfer Subject Areas

- Agriculture
- Art
- Biology
- Biotechnology
- Business
- Criminal Justice
- Education
- English
- Geography
- Humanities
- History
- Journalism
- Language Studies
- Mathematics
- Music
- Photography

Biotechnology

 **Beatrice, Lincoln**  **4 terms**

 **100%-online option available**

 **Associate of Science, Certificate, Diploma**

If you love science, have an inquisitive mind and a desire to solve biological problems, this program is perfect for you! We are the only college in Nebraska offering this unique program. You will learn the basics and graduate prepared for an advanced career in academic, government and industry laboratories. If an advanced degree in a STEM field is your goal, our program will prepare you for that, too.

Our program offers a hands-on learning experience that culminates in an industry practicum, where you will directly apply the skills learned in a real-world business environment as a productive team member.

Types of jobs available:

- Cell Culture Technician
- Laboratory Assistant
- Research Assistant
- Animal Laboratory Assistant

Computer Information Technology

 Lincoln (Campus)

 Some courses online

 4 terms

 Associate of Applied Science

 \$23.20/hour

Almost every field—health, education, business, transportation, and manufacturing—relies on computers and the people who make them work. Successfully complete this program to start a rewarding career in Information Technology (IT) with career opportunities available in every area of the economy.

You'll design and code software applications on different computer platforms (PC, web, and mobile); learn to code Java and C# applications; develop basic apps for mobile devices; or work behind the scenes developing web sites. If you're interested in cybersecurity, you'll explore security practices, cyber defense techniques, and digital forensics related to the protection of today's networks and critical information systems. As a network manager, you'll set up, maintain, and manage computer networks in both a Windows and Linux environment. You'll learn to set up virtual machines and work with Cisco networking. If you enjoy solving problems and helping others, you'll like computer support where you can work with computer setup, maintenance, and troubleshooting while providing support for computer users.

Focus Areas

- Application Development
- Cybersecurity
- Network Management
- Computer Support

Recent graduates hired as:

- Application Developer
- Business Installation Technician
- Desktop Support Technician
- Developer
- Help Desk Analyst
- IT Database Analyst
- IT Infrastructure Support Technician
- Network Operations Engineer
- Programmer
- Software Developer
- Software Engineer
- Support Desk Engineer
- System Engineer
- Technical Support Representative
- Web Developer

Geographic Information Systems Technician

 100% Online

 1 term

 Certificate

 \$22.05/hour

Geographic Information Systems (GIS) careers are available in almost every field and are often found in government agencies, businesses, schools, and private organizations. GIS technicians produce, read, and use maps to manage communities and industries. They work with digital land data, manage databases, and design and prepare data using GIS hardware and software applications.

Recent graduates hired as:

- GIS Analyst and Contractor
- Network Designer
- Program Specialist
- Surveyor Technician

Graphic Design/ Media Arts

 Lincoln (Education Square)

 4 terms

 Associate of Applied Science

 \$16.85/hour

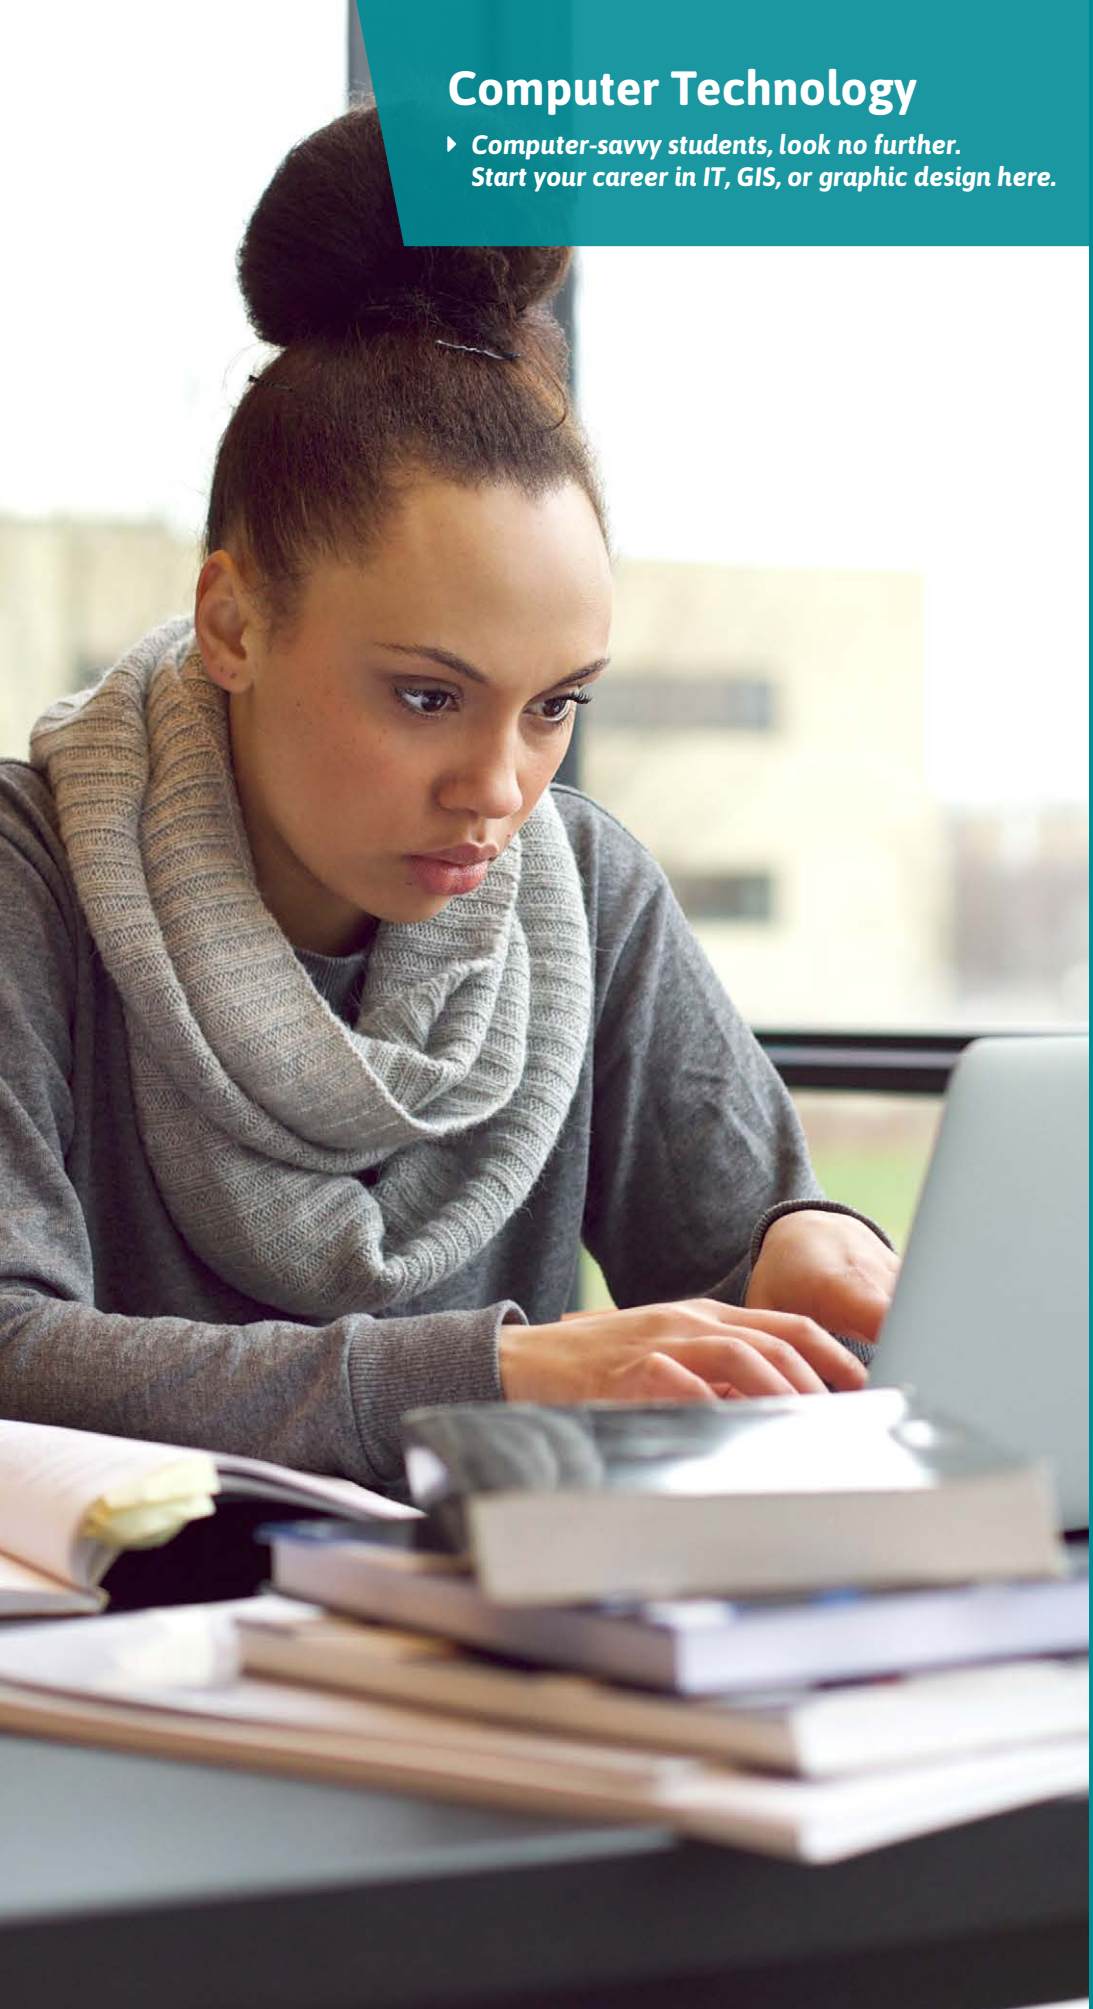

If you have an artistic mind and enjoy solving problems, this is the program for you. Graphic design uses fonts and images to convey a message to a specific audience, and graphic designers create visuals that inform the viewer and influence their behavior. There are many fields for graphic design jobs, including art and design, advertising, marketing, print, and interactive design.

Recent graduates hired as:

- Front-End Web Developer
- Graphic Designer
- HTML Project Associate
- Interactive Designer

Computer Technology

▶ *Computer-savvy students, look no further. Start your career in IT, GIS, or graphic design here.*

Business

 **Beatrice, Lincoln (Campus), Milford**

 **100%-online option available**

 **4 terms**

 **Associate of Applied Science,
Associate of Arts, Diploma,
Certificate**

 **\$18.40/hour**

Are you interested in working in a retail environment, insurance company, bank, or nonprofit organization? How would you like to start your own business? Learn what to expect as a bookkeeper, or gain knowledge of the event and venue industry. Discover what is expected as an entrepreneur and gain working knowledge, as well as hands-on experience, with skills necessary for success in any venture.

Customize your Business degree with a variety of options to meet your educational and career goals. With a Certificate, Diploma, or an A.A.S. degree, you can prepare for the workforce right away, or you can transfer to a four-year institution with the A.A. degree.

Focus Areas

- Business (A.A.S. degree, A.A. degree, Diploma or Certificate)

Long Term Care Administration

 **100%-online option available**

 **4 terms**

 **Associate of Applied Science,
Certificate**

 **\$31.60/hour**

If your goal is to become a long-term care administrator, this program is for you. As the need for long-term care services and supports grows, administrators lead in various settings, including assisted living, skilled nursing, adult day services, and other home and community-based programs. Administrators are responsible for achieving organizational goals through planning, organizing, staffing, influencing, and controlling. Courses include essential information and help you gain practical experience through projects and community activities. Small-group discussions promote peer learning among students of diverse personal and professional backgrounds.

Focus Areas

- Nursing Home Administration
- Assisted Living Administration

Recent graduates hired as:

- Chief Executive Officer
- Nursing Home Administrator
- Assisted Living Administrator

Horticulture & Turfgrass Management

 Beatrice

 4 terms

 Associate of Applied Science

 \$16.55/hour

The Horticulture & Turfgrass Management program prepares you for a host of career opportunities, from landscape design and construction to greenhouse management to athletic field and golf course maintenance. Combine classroom theory with hands-on experience around the Beatrice Campus, including two golf course holes, and pursue a cooperative experience at a golf course, landscape company, greenhouse, and more. This degree will teach you the expertise behind landscape design and construction, greenhouses and nurseries, as well as maintaining turfgrass areas on golf courses, athletic fields, and other commercial and non-commercial turf areas.

Our students have found great success in the classroom and after graduation, winning the 2018 North American Colleges and Teachers of Agriculture Horticulture Competition. Our students are National Champions and technically trained future leaders in the industry.

Focus Areas

- Golf and Sports Turf Management
- Horticulture

Types of jobs available:

- Assistant Superintendent
- Golf Course Assistant
- Golf Course Spray Tech
- Golf Course Irrigation Tech
- Sports Field Manager
- Landscape Construction
- Landscape Installation
- Landscape Maintenance

Agriculture

- Learn how to make a living in the field and beyond exclusively at our Beatrice Campus.

Livestock Management & Production

📍 Beatrice

📅 4 terms

🎓 Associate of Applied Science

💰 \$11.72/hour*

Livestock managers are responsible for running the business of livestock on farms or ranches. They must keep accurate financial records, supervise workers, and ensure proper care of animals. They make sure that the goods from animals are produced safely, efficiently, and profitably by monitoring what the livestock is fed, keeping the animals healthy, and ensuring overall cleanliness of animals and facilities.

Types of jobs available:

- Livestock Genetics Salesperson
- Swine Production Technician
- Feedlot Technician
- Animal Health Sales
- Veterinary Assistant
- Artificial Insemination Technician
- Research Technician
- Livestock Production Specialist
- Conservationist
- Principle Auctioneer

Precision Agriculture

📍 Beatrice

📅 1 term

🎓 Certificate

💰 \$13.43/hour*

With this certificate, you can install, set up, operate, analyze, and troubleshoot the systems needed to help feed the world. Precision agriculture is site-specific farming that lowers input costs and maximizes yield potential through the use of data: GPS guidance, drones, variable rate application, GPS-based soil testing, satellite imagery, crop health analysis, yield monitoring, and prescription-based applications. According to Global Market Insights, precision-farming technologies are projected to become a \$10 billion industry by 2024. Our students get to learn using the real technologies in this field, as well as a basic understanding of hydraulic and electronic systems applied in these practices.

Recent graduates hired as:

- Ag Aviation Ground Crew
- Bulldozer Operator
- Crop Consultant
- Custom Applicator
- Farm Assistant Manager
- Farm Hand
- Research Technician

Building Construction Technology

 Milford

 1-4 terms

 Associate of Applied Science, Certificate

 \$20.00/hour

This program gives you the foundation for any career in the building construction industry. After learning and practicing building skills, you'll finish your studies by using everything you've learned to build an actual home with fellow students, right on the Milford Campus. You can join our award-winning National Association of Home Builders student chapter and the Associated General Contractors student chapter.

Focus Area

- Carpentry & Cabinet Making Construction (Certificate)

Recent graduates hired as:

- Carpenter
- Construction Laborer
- Construction Owner
- Construction Technician
- Skilled Laborer
- Facilities Management
- Framer

Design & Drafting Technology

 Lincoln (Campus)

 1-4 terms

 Associate of Applied Science, Certificate

 \$17.50/hour

Architectural design is the creation of construction documents for residential and commercial structures through the use of building information modeling (BIM) designs. Computer-aided design and drafting (CADD) is communication through the use of graphic representation and creation of 3D designs. Our program combines drafting and design to give students several options in their careers.

Focus Areas

- Associate of Applied Science
 - Architectural Design
 - Computer-Aided Design and Drafting (CADD)
- Certificate
 - Designing Software
 - Residential Design

Recent graduates hired as:

- Assistant CADD Technician
- CAD Designer
- Drafter
- Drafting Technician
- Designer
- Electrical BIM Technician
- Electrical Designer
- Electrical Drafter
- Highway Design Technician
- HVAC Draftsman
- Mechanical CADD Technician
- Mechanical Designer
- Precast Drafter
- Rebar & Manhole Detailer

Heating, Ventilation, Air Conditioning & Refrigeration Technology

 Milford

 4 terms

 Associate of Applied Science

 \$18.70/hour

With the high demand for well-trained HVAC technicians nationwide, become the go-to expert in solving heating and cooling issues. Professionals in the HVAC/R industry design, build, install, service, maintain, troubleshoot, and repair heating and cooling systems year-round. Students may focus on the installation and maintenance of residential, commercial, or industrial heating or ventilation; air conditioning; hydronic heating systems; or refrigeration equipment.

Recent graduates hired as:

- Apprentice Steamfitter
- Apprentice Technician
- HVAC Technician
- Installer
- Service Technician

Plumbing Technology

 Milford

 2 terms

 Diploma

 \$14.30/hour*

As a plumber, you will work in both commercial and residential settings to repair, install, and maintain plumbing fixtures and systems for drainage, heating, drinking, venting, and sewage. A large part of the job involves the ability to work with building blueprints to assess layouts of plumbing systems and the water supply.

Types of jobs available:

- Apprentice Plumber
- Installation of plumbing and heating systems in new buildings
- Installation and maintenance of plumbing, heating, and piping systems for industries, public utilities, or government agencies
- Plumbing Technician
- Self-employment

*Salary is based on the 10th percentile earnings for SCC's 15-county area. (EMS) data; www.economicmodeling.com

Construction

- ▶ Learn the ins and outs of constructing, engineering, heating and cooling, plumbing, designing, and surveying properties.

Technical Skills Instructor

📍 Lincoln (Campus), Milford

📅 4 terms

🎓 Associate of Occupational Studies

Those wishing to teach future generations of high school students are a fit for the Technical Skills Instructor program. It's designed specifically for those who want to combine industry training with skills and technical science courses to earn a degree in occupational studies. Each focus can be tailored to meet those needs. Students who complete this program can transfer to the University of Nebraska-Lincoln to complete requirements for a secondary teaching endorsement.

Focus Areas

- Architecture and Construction
- Manufacturing
- Science, Technology, Engineering, and Mathematics (STEM)
- Transportation, Distribution, and Logistics

Recent graduates hired as:

- Industrial Technology Teacher
- Secondary Engineering & Technology Teacher
- Skilled & Technical Sciences/Ag Teacher

Land Surveying/GIS/ Civil Engineering Technology

📍 Milford

📅 4 terms

🎓 Associate of Applied Science

💰 \$17.20/hour

SCC has the only land surveying program in Nebraska, and its hands-on coursework will prepare you to become a land surveying technician, civil CAD drafter, or construction materials inspector. Technicians survey the construction of streets, dams, bridges, highways, airports, and parks, as well as survey boundary locations of sub-divisions and private and commercial property. You'll learn GPS and GIS technology. During the program, you'll be employed on the job in a cooperative experience performing land surveying, drafting, or materials testing/inspection with cooperative education employers throughout Nebraska and surrounding states.

Recent graduates hired as:

- Survey Assistant
- Survey Technician
- Surveyor

Adult & Juvenile Services and Corrections

-  Lincoln (Education Square)
-  100%-online option available
-  4 terms
-  Associate of Applied Science
-  \$16.40/hour*

Start your career in corrections at SCC. Learn what it takes to work in community-based correctional services, institutional corrections, secure mental health facilities, and juvenile justice agencies. This program teaches you the skills and expertise to work with a wide variety of clients in a community-based corrections setting and inmates in an institutional setting.

Types of jobs available:

- Assistant Probation Officer
- Child Protection Officer
- Compliance Officer
- Corrections Officer
- Drug Court Technician
- Electronic Monitoring Officer
- Inmate Classification Officer
- Juvenile Corrections Counselor
- Juvenile Detention Officer
- Juvenile Diversion Officer
- Juvenile Parole Officer
- Parole Officer
- Youth Worker

Criminal Justice

-  Beatrice, Lincoln (Education Square)
-  100%-online option available
-  4 terms
-  Associate of Applied Science, Associate of Arts
-  \$18.90/hour

If you're interested in the fascinating world of law enforcement, this program will equip you with the skills necessary to start your career in criminal justice or corrections. The program focuses on teaching you to perform the basic duties and tasks associated with entry-level positions.

Recent graduates hired as:

- Corporal
- Correctional Officer
- Criminal Justice Advocate
- Family Support Worker
- Officer
- Patrol Officer
- Police Officer Recruit
- Relief Specialist
- Security Officer
- Security Specialist
- Unit Caseworker
- Youth Specialist

Human Services

-  Lincoln (Campus)
-  1-4 terms
-  Associate of Applied Science, Certificate
-  \$14.50/hour

Human services professionals help individuals overcome social barriers of poverty, abuse, oppression, mental health challenges, and addiction. This is a generalist degree that prepares individuals to work with many populations. After graduating from this program, students enter a profession where they have a positive impact on the lives of others. This degree program prepares you to serve others in a variety of capacities, including homeless shelters, domestic violence or child abuse advocacy, drug and alcohol abuse counseling, mental health support, life enrichment for gerontology and more. Many classes are offered online. Practicum opportunities are offered in a variety of settings.

Recent graduates hired as:

- Case Manager
- Community Support Worker
- Domestic Violence Advocate
- Drug and Alcohol Counselor
- Drug and Alcohol Technician
- Family Advocate
- Life Enrichment Specialist
- Volunteer Coordinator

Law Enforcement & Homeland Security

-  Beatrice, Lincoln (Education Square)
-  100%-online option available
-  4 terms
-  Associate of Applied Science
-  \$16.40/hour*

The Law Enforcement and Homeland Security program is designed to support the continued professional growth of in-service practitioners through the enhancement of field-specific knowledge. The program provides students educational and internship experiences that enable them to succeed in entry-level positions or advance in their criminal justice career. The program provides an overview of the criminal justice system while also focusing on elements of supervision, risk assessment, conflict resolution, communications, and reporting techniques.

Types of jobs available:

- Animal, Plant, and Health Inspection Service
- Border Patrol Agent
- Coast Guard
- Crime Statistics Analyst
- Criminal Investigator
- Deportation and Detention Officer
- Deportation Officer
- Emergency Management Specialist
- FEMA Specialist
- Immigration and Customs Agent
- K-9 Officer
- Police Officer
- Private Security Officer
- Railroad Police
- Security Analyst
- TSA Specialist
- Youth Specialist

Community & Public Services

- ▶ *Serve the greater good by filling a critical need for the community and public at-large.*

Early Childhood Education

📍 Lincoln (Campus)

💻 Some courses online

📅 1-4 terms

🎓 Associate of Applied Science, Associate of Arts, Diploma, Certificate

💰 \$12.50/hour

If you enjoy working with children, this program will provide you with the necessary skills to teach children and strengthen families in various early care and education positions. Designed for individuals interested in working directly with children from birth to age 8, the courses prepare you to understand child development, developmentally appropriate curriculum, and methods for supporting a child's learning.

Recent graduates hired as:

- Assistant Preschool Teacher
- Child Care Center Assistant
- Teacher/Owner
- Infant Teacher
- Lead Teacher
- Library Aid
- Owner
- Para-educator
- Preschool Co-Teacher
- Preschool Lead Teacher
- Teacher
- Teacher Assistant
- Toddler Specialist

Electrical & Electromechanical Technology

 Milford

 4 terms

 Associate of Applied Science,
Construction Electrician Certificate

 \$21.40/hour

Start your career as a skilled electrician. Understand how to work in residential, commercial, and industrial construction while learning about robotics, programmable controllers, and automated systems. If you're interested in repairing machinery, hydraulics, welding, and fabrication along with the fundamentals for electrical design, installation, and equipment maintenance, the Electromechanical Systems focus is for you.

We emphasize hands-on learning so you can practice what you learn in the classroom and develop critical thinking. Expect to spend about half of your time in lab settings.

Focus Areas

- Electrical Systems
- Electromechanical Systems
- Automation Systems

Recent graduates hired as:

- Apprentice Electrician
- Electrical Controls Technician
- Electromechanical Technician
- Electronics Technician
- Installation Technician
- Maintenance Mechanic
- Maintenance Technician
- Service Technician
- Shop Fabrication
- Substation Technician
- Utility Maintenance

Electronic Systems Technology

 Lincoln (Campus)

 4 terms

 Associate of Applied Science

 \$19.35/hour

Prepare yourself for an array of career opportunities, including industrial and personal networking, robotics, automation systems, avionics, biomedical, communications, and many other commercial electronic systems and non-commercial personal systems. Approximately half of the training will take place in a laboratory setting where students will apply the classroom theory. A degree in Electronic Systems Technology can open a variety of exciting, steady, and lifelong career opportunities with great salaries and benefits! Become part of this excellent career field that everyone depends on every day.

Focus Areas

- Cisco Networking/Security
- Robotics and Automation
- Electronic Systems Technician
- Military Transfer (Advanced Placement)

Recent graduates hired as:

- Application Specialist
- Assembly Electronic Technician
- Avionics Bench Technician
- Electrical Maintenance
- Electronic Technician
- Field Technician
- General Manager
- Install Technician
- Instrument & Control Technician
- Programmer
- System Technician

Energy Generation Operations

 Milford

 1-4 terms

 Associate of Applied Science, Diploma,
Certificate

 \$28.20/hour

Prepare for a career in one of the fastest-growing industries in the world. The increased need for power plant operators—who control the production of electricity, fluid fuels, and other types of power—makes this the right time to study for a career in energy. At SCC, you can learn about the different processes of generating power with real-world training in our state-of-the-art control room simulator. When you graduate, you'll be qualified to become an operator or technician in a power plant, bio-fuels production facility, wind farm, various energy production operations, and a wide range of processing facilities including fertilizer manufacturing, water and wastewater treatment plants, and breweries.

Recent graduates hired as:

- Operations Crew Leader
- Operations Helper
- Operator
- Power Plant Operator
- Sub Transmission & Distribution Operator
- Technician

Manufacturing Engineering Technology

 Milford

 4 terms

 Associate of Applied Science

 \$20.15/hour

Do you like to make things? Do you like to make things better, faster, and less expensive? This program will allow you to be hands-on and still be a part of the design process. You will graduate with the necessary skills to work in a variety of manufacturing jobs, including designing, drafting, quality assurance, purchasing, and/or sales, and become a valued member of an engineering team.

Recent graduates hired as:

- Product Designer
- Robot Programmer
- Engineering Technician
- Automation Engineer
- Facilities Layout Management

Manufacturing

► *Make a career out of making things happen. Join the ranks of our successful graduates working on electrical systems, power plants, manufacturing, welding, and more.*

Nondestructive Testing Technology

📍 Milford

📅 4 terms

🎓 Associate of Applied Science

💰 \$24.40/hour

Prepare to be in an exciting and fast-paced career which provides opportunities in a variety of industries which include aerospace, petrochemical, oil and gas, transportation, buildings and bridges, and power generation. NDT uses various inspection techniques designed to determine integrity without causing damage or destroying the material. Students will develop essential skills in the areas of visual inspection, liquid penetrant, magnetic particle, ultrasonics, radiography, and eddy current testing techniques. In addition, graduates will learn advanced inspection methods involving the application of phased array ultrasound, multi-frequency eddy current, along with computed and digital radiography methods. These skills are in high demand and will position you to have several job opportunities and attractive starting wages.

Recent graduates hired as:

- Advanced Services Technician
- Assistant Technician
- NDT Researcher and Developer
- NDT Inspector
- NDT Technician
- Radiographer Assistant
- Radiography Technician

Precision Machining and Automation Technology

📍 Milford

📅 2-4 terms

🎓 Associate of Applied Science, Diploma

💰 \$20.65/hour

Get ready for an exciting, fast-paced career in manufacturing and become one of SCC's highly sought-after manufacturing graduates. Specialize in tool making, mold making, CNC machining, and manufacturing automation in our 15,000-square-foot Eicher Technical Center in Milford, one of the largest precision-machining training facilities. You'll have detailed instruction and access to use state-of-the-art, high-end CNC equipment such as VMC and CNC lathes with live tooling and EDM technology with both wire and sinker. Haas, Okuma, Charmilles, and Makino are just some of the manufacturers that are represented. You'll also learn to program and design components and assemblies through computer software like MasterCAM, SolidWorks, and AutoCAD. Throughout your studies, you'll also design and build various projects relevant to the mold, die, and automated-equipment industry, too.

Focus Areas

- CNC and Automation
- Tool Maker

Recent graduates hired as:

- Automated Machine Builder
- CNC Programmer
- CNC Set-Up & Operator
- Die & Mold Designer & Builder
- Quality Control Technician
- Tooling Designer & Builder
- Tooling & Equipment Designer

Welding Technology

📍 Lincoln (Campus)

📅 1-4 terms

🎓 Associate of Applied Science, Diploma, Certificate

💰 \$20.80/hour

Are you detail oriented? Do you possess manual dexterity and physical strength? Do you have the ability to spot changes in how hot metal flows? If you answered yes, then this program is for you.

You'll receive classroom instruction and extensive hands-on training about current welding practices and procedures, metallurgy, destructive and nondestructive testing, inspection, and the principles of fabrication and design. The program meets the American Welding Society, American Petroleum Institute, and American Society of Mechanical Engineers standards. Some of the welding processes utilized are shielded metal arc, gas metal arc, gas tungsten arc, flux cored arc, and submerged arc welding. Cutting processes include oxyfuel and plasma arc.

Recent graduates hired as:

- Carman
- Fabricator
- Heavy Equipment Mechanic
- Ironworker
- Pipe Welder/Fitter
- Millwright
- Welder

Associate Degree Nursing

- Beatrice, Lincoln (Campus) Associate of Applied Science
 4 terms \$27.00/hour
(Part-time track available)

The Associate Degree Nursing (ADN) program will prepare students for entry-level practice as a nurse. Upon successful completion of the program, you will be able to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). After successful completion of this exam, you will be a registered nurse and can work in a variety of healthcare settings, including hospitals, outpatient surgery centers, rehabilitation centers, physicians' offices and urgent care clinics, long-term care and home healthcare agencies, among other areas. Our intensive curriculum prepares learners to excel in nursing core courses and to practice with competence, confidence, and compassion.

Recent graduates hired as:

- Registered Nurse (RN)
- RN, Acute Rehab
- RN, Burn Unit
- RN, Cardiac Intermediate,
- Perioperative or Nurse
- RN, Charge Nurse
- RN, Coordinator
- RN, Float
- RN, ICU
- RN, Inpatient
- RN, Ortho/Trauma
- Team Leader
- Treatment Nurse

Dental Assisting

- Lincoln (Campus) Associate of Applied Science, Diploma
 2-4 terms \$17.70/hour

Make someone smile! Dental assistants interact with patients and assist dentists in providing quality dental care. Dental assistants may also expose and process dental X-rays, prepare and sterilize instruments and equipment, take impressions of patients' teeth, polish (coronal) teeth, assist the dentist with various procedures, communicate with other healthcare professionals, and manage some office tasks. Dental assistants are classified as licensed professionals in the state of Nebraska.

Recent graduates hired as:

- Certified Dental Assistant
- Dental/Orthodontic Assistant
- Orthodontic Assistant
- Surgical Assistant

Medical Laboratory Technology

- Lincoln (Campus) Associate of Applied Science
 4 terms \$20.35/hour

Medical laboratory technicians are highly sought after! They work in all areas of the clinical laboratory, including blood banking, chemistry, hematology, immunology, and microbiology. MLTs use high-tech instrumentation and microscopes to aid physicians in the diagnosis and treatment of disease. If you like science and puzzles, this is the career for you!

Recent graduates hired as: Medical Laboratory Technician

Polysomnographic Technology

- 100%-online option available
(clinicals completed at sleep centers) Certificate
 2 terms \$23.10/hour

Polysomnographic technologists are allied health professionals who work under the supervision of a licensed sleep physician to assist in the education, evaluation, treatment, and chronic care management of patients with sleep disorders. Sleep technologists are experts at fitting, titrating, and troubleshooting PAP devices, which are used to eliminate sleep-disordered breathing and improve quality of life. Sleep technologists obtain certification through board examination to acquire the credential of Registered Polysomnographic Technologist. Students are eligible to apply for the credential when the required degree is finished and when the required courses listed in the program admission checklist are successfully completed.

Recent graduates hired as: Polysomnographic Technician

Associate of Health Sciences

- Beatrice, Lincoln, Milford
 Associate of Science
 4 terms

The Associate of Health Sciences degree allows students to earn an Associate of Sciences degree that has a wide applicability to healthcare fields and prepares students for a number of educational opportunities beyond that degree. This degree may apply toward a specific health profession program at SCC or transfer toward a health-related program at another college or university. The Associate of Science in Health Sciences supports degree work that can be accomplished during the time a student may be waiting for admission to a specific program.

Healthcare Services

- Beatrice, Lincoln (Campus),
Milford, Online 1 term
 Certificate
 Some courses online* \$10.15/hour*

Careers in both healthcare support and technical jobs are expected to be the two fastest-growing groups during 2014-24. The Healthcare Services certificate provides you with entry-level, flexible skills to work in hospitals, medical facilities, and physicians' offices.

We provide coursework and training for this certificate through the healthcare programs on campus, in the Continuing Education Division, dual-credit health pathways offered through The Career Academy and Southeast Nebraska Career Academy Partnership (SENCAP), and through our six Learning Centers in our 15-county service area.

Recent graduates hired as:

- Certified Nursing Assistant
- Medication Aide
- Phlebotomist
- EMT
- EKG Technician
- Personal Care Aide

Medical Assisting

- Lincoln (Campus) Diploma
 3 terms \$15.30/hour

Medical assistants perform clinical duties such as vital signs, laboratory tests, and electrocardiograms. They draw blood, prepare and administer medication, and assist the physician. They may also perform administrative duties such as scheduling appointments, billing, coding, and handling insurance. Graduates work in offices and clinics of physicians, podiatrists, chiropractors, optometrists, and other specialties.

Recent graduates hired as:

- Certified Medical Assistant
- Optometry Technician
- Orthodontic Assistant

Paramedic

- Lincoln (Campus), Online
 Some courses online* Associate of Applied Science
 4 terms \$16.70/hour

Paramedics provide medical care by preventing or reducing mortality and morbidity due to illness and injury. As a patient advocate, paramedics seek to be proactive in affecting long-term healthcare by working in conjunction with other provider agencies, networks, and organizations. Traditional roles are in pre-hospital medicine with ambulance services, fire departments, and flight programs, as well as within hospital critical-access care areas.

Recent graduates hired as:

- Emergency Medical Technician
- Paramedic
- Firefighter
- Critical Care Paramedic

*Salary is based on the 10th percentile earnings for SCC's 15-county area. (EMSI data; www.economicmodeling.com)

**Program offers web-based courses but requires supervised clinicals/practicums/labs at identified locations.

***This is an advanced certificate for those who already have an AAS in Surgical Technology. Salary is based on the 75th percentile earnings for SCC's 15-county area for Surgical Technologists. (EMSI data; www.economicmodeling.com)

Pharmacy Technician

- Lincoln (Campus), Online
- Some courses online*
- 2 terms
- Diploma
- \$12.50/hour

Learn what it takes to be successful in a variety of pharmacy settings, including working with customers, filling prescriptions, handling medications, ordering processes, inventory control, and completing insurance claims. Pharmacy technicians work alongside licensed pharmacists from hospitals to pharmacies. Your instructors are certified pharmacy technicians and pharmacists who will prepare you to take the national certification exam upon graduation.

Recent graduates hired as: Pharmacy Technician

Respiratory Care

- Lincoln (Campus)
- Some courses online*
- 4 terms
- Associate of Applied Science
- \$20.60/hour

The field of respiratory care has a promising future, and SCC is here to make you a part of it. Our program prepares students to become practitioners who evaluate, treat, and care for patients with breathing or other cardiopulmonary disorders. As a respiratory therapist, you'll learn to follow specific, well-defined respiratory care procedures under the direction of physicians.

Recent graduates hired as: Respiratory Therapist

Physical Therapist Assistant

- Lincoln (Campus)
- 4 terms
- Associate of Applied Science
- \$23.90/hour

As a physical therapist assistant, you will work under the direction of a physical therapist to help patients of all ages recover from medical problems and other health-related conditions limiting their ability to move. Students will learn about the common diseases and conditions affecting movement, how to work with patients, and skilled interventions including therapeutic exercise, gait and mobility training, balance, physical agents, and neurological rehabilitation. Graduates are prepared to take the national licensure examination and start a career of helping patients regain their function and live better, happier lives.

Recent graduates hired as:

- Physical Therapist Assistant
- ISSA Certified Personal Trainer
- Traveling PTA

Radiologic Technology

- Lincoln (Campus), Online
- Some courses online**
- 4 terms
- Associate of Applied Science
- \$17.15/hour

As a radiologic technologist, you'll work with patients performing radiology exams at hospitals, clinics, outpatient imaging centers, and/or doctor's offices to complete MRIs, X-rays, and CAT scans. Learn the safe use of radiation to produce digitally processed X-rays. Students will learn proper positioning and imaging for diagnostic purposes as well as the skills required to operate within the ethical, professional, and legal boundaries of the profession. Completing the program prepares you to take the American Registry of Radiologic Technologist Exam and apply for state licensure where you choose to work.

Recent graduates hired as:

- Cardiac Catheterization Scrub Tech
- Radiologic Technologist
- Interventional Radiology
- Mammographer
- Radiographer
- X-ray Tech

Healthcare

▶ *Make an impact on countless lives as a healthcare provider—one of Nebraska's greatest labor needs.*

Practical Nursing

- Beatrice, Lincoln (Campus), Milford, Online
- Some courses online*
- 2 terms
- Diploma
- \$17.95/hour

This program will teach you the concepts, principles, skills, and attitudes needed to become a practical nurse who can work with patients throughout their lifespan. LPNs report directly to a registered nurse or physician and perform many procedures, including monitoring vital signs, administering medication, documenting work, and supervising unlicensed personnel.

Recent graduates hired as:

- Licensed Practical Nurse (LPN)
- LPN, Charge Nurse
- LPN, Quality Improvement
- LPN, Quality Management
- Charge Nurse
- Collection Charge Nurse
- Patient Care Technician
- Treatment Nurse
- Ward Clerk

Surgical First Assist

- 100% online
- 1-2 terms
- Certificate
- \$17.25/hour***

As defined by the American College of Surgeons, the surgical first assistant provides aid in exposure, hemostasis, and other technical functions that will help the surgeon carry out a safe operation with optimal results for the patient. Their role will vary considerably with the surgical operation, specialty areas, and type of facility. Employment of surgical first assistants is projected to grow 31.2% through 2027, which is much faster than the average for all occupations according to the Bureau of Labor Statistics. Their main role is to work in the operating room of a hospital, surgery center, specialty center, doctor's office, or labor and delivery.

Recent graduates hired as:

- Traveling Surgical First Assistant
- Surgical First Assistant Clinical Instructor
- Clinical Preceptor
- Education Coordinator
- Private Scrub
- Surgical Technologist
- Certified Surgical First Assist

Surgical Technology

- Lincoln (Campus), Online
- Some courses online*
- 3 terms
- Associate of Applied Science
- \$18.65/hour

This program will provide students with the skills necessary to become a successful surgical technologist, an integral part of a surgical team. This role anticipates the needs of the surgical team, hands instruments, and assists the surgeon by holding retractors, cutting sutures, suctioning wounds, adjusting lights, and applying dressings. To complete the program, the National Certification Exam is administered before graduation.

Recent graduates hired as:

- Certified Surgical Technologist
- Patient Care Provider
- Scrub Technician
- Surgical Supply Technician

Professional Truck Driver Training

 Milford

 Certificate

 8 weeks

 \$21.50/hour

If you enjoy being on the road, why not get paid for it? There is a tremendous demand for skilled drivers all across the United States, and our Professional Truck Driver Training program prepares you for both intrastate and interstate commerce. This intensive truck driving course teaches you how to operate articulated vans and flatbeds. Test drive on city streets and rural roads, as well as two-lane and interstate highways. Graduates will obtain a Class A Commercial Driver's License.

Recent graduates hired as:

- Over-The-Road Truck Driver
- Owner/Operator
- Yard Driver

John Deere Tech

 Milford

 Associate of Applied Science

 4 terms

 \$17.50/hour

This cooperative program between John Deere, John Deere dealers, and SCC trains you to become a technician in John Deere dealerships. Courses include fundamentals and safety, electrical and electronics, engine repair, fuel systems, tractor performance, heating and air conditioning, hydraulics, and powertrains. Students in the program are required to have a sponsoring John Deere dealer, and students are expected to continue employment at the dealership after graduation.

Recent graduates hired as:

- Agricultural Equipment Technician at a John Deere agricultural dealership
- Agricultural Management Solutions (AMS, GPS) at a John Deere dealership

Deere Construction & Forestry Equipment Tech

 Milford

 Associate of Applied Science

 4 terms

 \$26.45/hour

Learn how to service engines, power trains, hydraulic, electrical, and electronic systems as well as diagnose and repair air conditioning problems for Deere construction & forestry equipment. This program is offered through a joint cooperation between SCC, John Deere, and Deere construction & Forestry Equipment dealers. Students must secure a Deere Construction & Forestry Equipment dealership sponsor for off-campus training.

Recent graduates hired as:

- Construction Equipment Technician at a Deere Construction & Forestry equipment dealership

General Motors Automotive Service Educational Program

 Milford

 Associate of Applied Science

 4 terms

 \$18.45/hour

Study to start your career as an entry-level service technician in a General Motors (GM) dealership. The program is offered jointly by GM and SCC in cooperation with GM dealers. You will gain knowledge of the entire operation of the newest GM vehicles while earning factory GM training certifications. On-campus lab time is supplemented with co-operative education experiences in GM dealerships that is designed to smoothly transition to employment in the dealership after graduation. Students must secure a General Motors dealer to sponsor them during training.

Recent graduates hired as:

- Automotive Technician at a GM dealership

Powersports Technology

 Milford

 Associate of Applied Science, Diploma

 2 terms

 \$14.50/hour

Start an exciting career repairing high-performance recreational, adventure-seeking, multi-terrain rugged machines! On top of learning advanced diagnostics and troubleshooting procedures, you'll explore how to fix engines, transmissions, suspension and steering, brakes, fuel systems, electrical/electronics, and maintenance and rideability issues. You can choose to specialize in one type of vehicle or aspect, such as vehicles from a specific manufacturer. This program prepares you for a career working in independent repair shops, dealerships, and specialty shops.

Recent graduates hired as:

- Detailer
- Mechanic
- Motorcycle Mechanic
- Sales Associate
- Technician

MOPAR-Chrysler/Dodge/RAM/Jeep College Automotive Program

 Milford

 Associate of Applied Science

 4 terms

 \$19.60/hour

Jointly offered by Chrysler, its dealers, and SCC, the MOPAR Career Automotive Program teaches you to become a highly skilled service technician or mechanic with Chrysler-certified factory training. You'll spend time between the Milford Campus and a dealership, gaining experience with a mentor master technician. You'll develop an analytical and technical approach to master bumper-to-bumper and electrical repairs, electronic diagnostics, and troubleshooting on the latest vehicles. Students are required to have a sponsoring Chrysler dealer prior to being admitted.

Recent graduates hired as:

- Automotive Technician at a Chrysler dealership

Transportation

► *Be the spark that makes things go— from auto-collision repair to John Deere maintenance to professional truck driving.*

Ford Automotive Student Service Educational Training Program

📍 Milford

🎓 Associate of Applied Science

📅 4 terms

💰 \$16.15/hour

Gain knowledge of the entire operation of a vehicle and receive advanced diagnostic training. Students combine lecture and lab experiences on campus, then spend additional time at a Ford or Lincoln dealership. The program is offered jointly by Ford Motor Company and SCC in cooperation with Ford and Lincoln dealers. Students must secure a Ford or Lincoln dealer to sponsor them during training.

Recent graduates hired as:

- Automotive Technician at a Ford dealership

Auto Collision Repair Technology

📍 Milford

🎓 Associate of Applied Science

📅 4 terms

💰 \$17.65/hour

Become a part of a viable industry that takes pride in how to repair a vehicle to pre-collision condition. Get training and experience in the collision-repair industry, including estimating, metal repair, welding, refinishing, structural repair, and detailing. You'll have the opportunity to work on real-world, customer-owned projects in a live lab setting with six modern paint booths. The program offers Platinum Class certification through I-Car (Inter-Industry Conference on Auto Collision Repair). Tools are required.

Recent graduates hired as:

- Auto Body Technician
- Disassembly Technician
- Estimator Assistant
- Collision Technician
- Paint Specialist

Automotive Technology

📍 Lincoln (Campus), Milford

🎓 Associate of Applied Science

📅 4 terms

💰 \$17.15/hour

Learn how to service and repair vehicles in this highly skilled profession. With computers controlling 80–90% of vehicle systems, technicians must understand how increasingly complex vehicles work, know how to identify problems, operate sophisticated diagnostic equipment, and remember proper repair procedures. The program covers diagnostic and repair of all areas of the vehicle, including all aspects of engine repair, transmissions, suspension systems, brakes, electrical/electronics, heating and air conditioning, and drivability.

Recent graduates hired as:

- Automotive Technician
- Certified Technician
- Customer Service Advisor
- Lube/Tire Technician
- Maintenance/Lube Technician
- Mechanic
- Shop Assistant

Diesel Technology-Truck

📍 Milford

🎓 Associate of Applied Science

📅 4 terms

💰 \$19.10/hour

Careers in diesel trucking industries offer a variety of challenging-but-rewarding opportunities. Choose your specialty—electrical/electronic systems, powertrains, suspension, braking, hydraulics systems, or engine/fuel systems—or become a master of all truck systems to personally handle any customer concern. Diesel engines are used in machines that affect every part of our lives, including all types of industrial applications as well as many personal vehicles.

In the Diesel Technology-Truck program, you will be trained in all phases of light, medium, and heavy over-the-road truck repair. There are tremendous employment opportunities available now, and this trend won't be slowing down anytime soon.

Recent graduates hired as:

- Diesel Truck Technician
- Mechanic
- Truck/Trailer Technician

Diesel-Ag Equipment Service Tech

📍 Milford

🎓 Associate of Applied Science

📅 4 terms

💰 \$18.45/hour

Careers in the agricultural equipment service industries offer a variety of challenging and rewarding opportunities. Get the education and real-life training you need for a career as an ag equipment diesel technician. You can specialize in electrical/electronic systems, precision farming, HVAC, harvesting, planting, hydraulics, powertrains, and engine/fuel systems. Many people choose to be masters of all agricultural equipment systems to personally handle any customer concern. You'll receive comprehensive training in all ag equipment systems during the program.

This course of study utilizes industry-sponsored equipment, tools, and resources that are typical of modern dealership service requirements. There are tremendous employment opportunities available now, including jobs at dealerships, independent shops, and farming operations, and will continue to be in the future.

Recent graduates hired as:

- Diesel Technician
- Heavy Equipment Tech
- Mechanic
- Service Technician
- Supervisor
- Farm Hand/Technician

Locations Offered

- B** = Beatrice Campus
- L** = Lincoln Campus
- M** = Milford Campus
- Q** = Education Square location (downtown Lincoln)
- O** = Entire program available online
- O*** = Program offers Web-based courses but requires supervised clinicals/practicums/labs at identified locations.

Starting Terms

- FA** = Fall Semester (August-December)
- SP** = Spring Semester (January-May)
- SU** = Summer Term (May-August)
- Call Admissions** = Call the Admissions Office for the next start term.

Awards Offered

- Cert** = Certificate
- Dip** = Diploma
- A.A.** = Associate of Arts Degree
- A.S.** = Associate of Science Degree
- A.A.S.** = Associate of Applied Science Degree
- A.O.S.** = Associate of Occupational Studies Degree

Please note: Online courses may require proctored exams. Any cost for the proctor is incurred at the student's expense. Testing Centers located on each SCC campus will proctor SCC courses at no charge to the student. Length in terms is the time for a full-time student to complete the program.

► Want more information?

We're committed to helping you find Your Path to Possible.

Enroll at SCC in three simple steps:

Complete an Application for Admission at southeast.edu/applynow or any SCC campus or Learning Center. There is no cost to apply.

Submit your ACCUPLACER/ACT/Next-Generation ACCUPLACER/SAT scores or an official transcript showing that you've completed college coursework in English and/or mathematics.

-OR-

Take the Next-Generation ACCUPLACER test at one of our campuses or Learning Centers.* To schedule an appointment to take the assessment, call any of our campuses or Learning Centers.

Submit any additional documents and/or information required by your Program of Study. For information about special program requirements, contact the Admissions Office by emailing Admissions@southeast.edu or visit southeast.edu.

***Note:** You're welcome to take the Next-Generation test as part of your campus visit. Let us know when you schedule your tour, and we'll make it happen!

► **Like what you see? Check it out in person.**
We're great on paper *and* in person.
Book your visit at southeast.edu/visitSCC.

Equal Opportunity/NonDiscrimination Policy

- It is the policy of Southeast Community College to provide equal opportunity and nondiscrimination in all admission, attendance, and employment matters to all persons without regard to race, color, religion, sex, age, marital status, national origin, ethnicity, veteran status, sexual orientation, disability, or other factors prohibited by law or College policy. Inquiries concerning the application of Southeast Community College's policies on equal opportunity and nondiscrimination should be directed to the Vice President for Access/Equity/Diversity, SCC Area Office, 301 S. 68th Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, or jsoto@southeast.edu.

Declaración de política sobre equidad/antidiscriminación - La política pública de Southeast Community College es de proveer equidad, y prohíbe discriminación, en todos asuntos referentes a la admisión, participación, y empleo contra toda persona por motivo de raza, color, religión, sexo, edad, estado civil, origen nacional, etnia, condición de veterano, orientación sexual, incapacidad, u otros factores prohibidos por ley o política del Colegio. Preguntas relacionadas a la política sobre equidad/antidiscriminación de Southeast Community College deben dirigirse a: Vice President for Access/Equity/Diversity, SCC Area Office, 301 S 68 Street Place, Lincoln, NE 68510, 402-323-3412, FAX 402-323-3420, o jsoto@southeast.edu.

Education for all.

More than 9,500 students from all walks of life come to SCC each year to take their first step toward their career path. Between our three campuses in Beatrice, Lincoln, and Milford, Lincoln's Education Square and six Learning Centers, SCC reaches learners in 15 counties and beyond.
